### ABOUT THE SESSION:

The Enterprise and Innovation curriculum offers an amazing opportunity to provide students with rich, authentic, performance-based learning. Community resources can enhance the classroom experience considerably. This webinar will scan a wide range of relevant resources (print materials, organizations, websites, video, etc.) and provide innovative ways to use them in the classroom. Ideas and resources will be linked directly to curriculum outcomes in all eight one-credit ENT courses.

### ABOUT THE FACILITATOR:

Ken Watson teaches CTS business courses and math at Centennial High School, a Career Pathways school in the Calgary Board of Education. He is also the Curriculum Leader for Career Development, responsible for infusing career development into the school curriculum areas. Ken will be joined by representatives of Junior Achievement.
