An Introduction to the Module-based Health Pathways Model for Sports Medicine *with Tracy Dalton & Andrea Oster*

Wednesday, June 3, 2009
4:30 pm to 6:30 pm
Manning Center 3600 16 Avenue SW Calgary
No Charge

Attend in person or via Webinar

WHO SHOULD ATTEND?

Educators interested in Sports Medicine, Physical Education and Community Health, or any other health pathway related courses to be implemented for September 2009.

ABOUT THE SESSION:

An overview of new Health Pathway and Career and Technology Studies module-based approach, and how it aligns with the former locally developed Sports Medicine courses. An introduction to project-based assessment structure and resources.

Facilitators will answer these questions:

- What is the new "Health Pathway" going to look like?
- What is the CTS module based approach all about? How is it better?
- How will it change my practice?
- What is "project based assessment"?
- How do I build in safety mechanisms?

Information will also be shared about the new Health Pathway scope and sequence.

Time will be allocated to address individual teacher questions about Health Pathways and project based assessment. Teachers will have an opportunity to identify their resource questions and needs to allow us to address these in the session on June 24.

ABOUT THE FACILITATORS:

Tracy Dalton is currently a teacher at CBE-Learn, the Calgary Board of Education online school. She has taught at 6 different high schools in Calgary, in English, Physical Education, CALM, Sports Medicine, Work Experience and Legal Studies. She is currently working on two content development projects, including developing 5 online modules for the Health Pathway Sports Medicine specialization.

Andrea Oster has been teaching in a hybrid learning environment at the National Sport School for the past 5 years. Areas taught include Sports Medicine, Physical Education, and CALM. Prior to that she taught Outdoor Education, Physical Education, and Sports Medicine at Queen Elizabeth Jr/Sr High School. She was one of the top five finalists for the Alberta Excellence in Teaching Awards program, SMARTer Kid Foundation for Innovative use of Technology Award and the Alberta Association for Supervision and Curriculum Development Calgary Regional Innovative Practices Award.
