Using Methods & Parameter Passing in Java Programs with Gerry Donaldson

October 26th, 2009

4:30 pm to 5:30 pm

Please log on at 4:00 pm to do your mic & speaker test!

\$20

ABOUT THE SESSION:

Methods and parameter is presented in the context of modularization of solutions to problems within Java's OOP paradigm. Methods minimize "side-effects". Static, instance and local variables are distinguished. Parameter passing by value(one-way) and reference (two-way) are compared.

ABOUT THE FACILITATOR:

Gerry has taught high school Computer Programming for 30 years, including IB and AP Computer Science for the past 15 years. He has used his teaching web site with his students for the past 13 years. Gerry currently works part-time as the High School Computer Science Outreach Consultant for the University of Calgary charged with supporting the work of Computer Science teachers in high schools.
