Where Can I Find Tutorials for my Students? *with Jody Watson*

September 23th, 2009
4:30 pm to 5:30 pm
Please log on at 4:00 pm to do your mic & speaker test!
\$20

ABOUT THE SESSION:

Teachers are always looking for good tutorials that their students can use and follow. My solution and suggestion is have them make their own. We use a program called Adobe Captivate where the students find projects/tutorials that they like and then use the software to create video tutorials that show fellow students how it is done.

ABOUT THE FACILITATOR:

Jody Watson has taught at Bawlf School for the past 11 years. He is very interested in using technology to engage students more in the learning. Is currently involved with a one to one laptop project in their high school where every grade 11 and 12 student gets a laptop.
