ABOUT THE SESSION:

This candid & forward-looking session will examine and explore course possibilities for teachers/schools as Sports Performance moves from being an LDC into the realm of CTS. A basic understanding of CTS will be expected so that the discussion can look at possibilities and anticipated gaps as this transition approaches. (*could be advertised as a P.E. session as well - can be scheduled at any point in the year, but 1st semester would be better*)

ABOUT THE FACILITATOR:

Mark Bylsma is a CTS Specialist with the Calgary Board of Education. His work is focused on the Health, Recreation and Human Services cluster and includes being the project lead for the CBE's Health Pathways pilot as well as the project lead in the pilot of the new Career & Technology Foundations (CTF) Program of Studies for grades 5-9.
